Hi Peter,

I'm sure our water division is somehow involved but as an initial point of contact I suggest you call Fran Burns a removal manager here in Phila. Fran can help direct you to the right person.

Fran is cc'd on this message and can be reached at 215 814-3245.

Thanks,

Steve

Steve-

Who in your office is handling the chemical spill that I might call or email and ask about some of the technical aspects of the drinking water standard, risk, etc.

thanks
